

Paál György (Phd, DSc)

email: paal@hds.bme.hu

position: chair

WPs involved with: WP4, WP5, WP2

Graduated in mechanical engineering in 1987 at BME, obtained a PhD degree at Imperial College, London in 1992. Spent almost ten years in two different universities in Germany, dealing with a variety of topics, all related to fluid mechanics. Returned to Hungary in 2002, became chair of the Department of Hydrodynamic Systems in 2006. Apart from overseeing all research, teaching and administrative activities in the department, my research areas are hemodynamics and flow

stability. I lead the hemodynamics group. Apart from Gemini, I am also involved in another EU funded hemodynamics-related project: ISW.
