

Richárd Wéber (PhD)

email: rweber@hds.bme.hu

position: Assistant professor

WPs involved with: WP2

Dr Richárd Wéber works as an assistant professor at Dept. of Hydrodynamic Systems, Faculty of Mechanical Engineering, Budapest University of Technology and Economics. 2 years ago, after finishing his PhD in the field of water distribution networks, he joined the hdsHemoLab group at the department concentrating in low-dimensional hemodynamic simulations. Currently, he is focusing on developing the low-dimensional cardiovascular model of the entire human circulation.
